

Jane Lamprill

Paediatric Research Consultancy™ (PRC) near Oxford UK, was founded in 2004 by Jane Lamprill RN RSCN FICR. Jane trained as a children's nurse at Great Ormond Street Hospital, London and has the following years experience: 17 as Research Sister, managing paediatric clinical trials at site, 1 as Paediatric Research Advisor, Origin Pharmaceuticals, 8 as Paediatric Research Consultant, 4 years writing for children classes (4 children's books published) 13 as Specialist Medical Writer, 5 as FP7 Ethics Panel Member, European Commission.

Jane works on the following types of documentation:

- all-age health care communications including age specific paediatric trial information for adults, teens, children and their parents
- child-friendly accurate artwork for little child assent information
- paediatric health economics advice via PRC expert network
- PIP and protocol feasibility reports for practical, ethical and operational issues to help ensure studies are “doable”
- ethics sections for paediatric studies and grant proposals .
