Budget Impact Models with CRM integration

Input for output - what do we focus on next?

COMMISSIONING AND PROCESS

objective:

scope, document and share a best fit, best practice process for commissioning, managing, and delivering digital projects

Survey results

Do you have a digital commissioning process

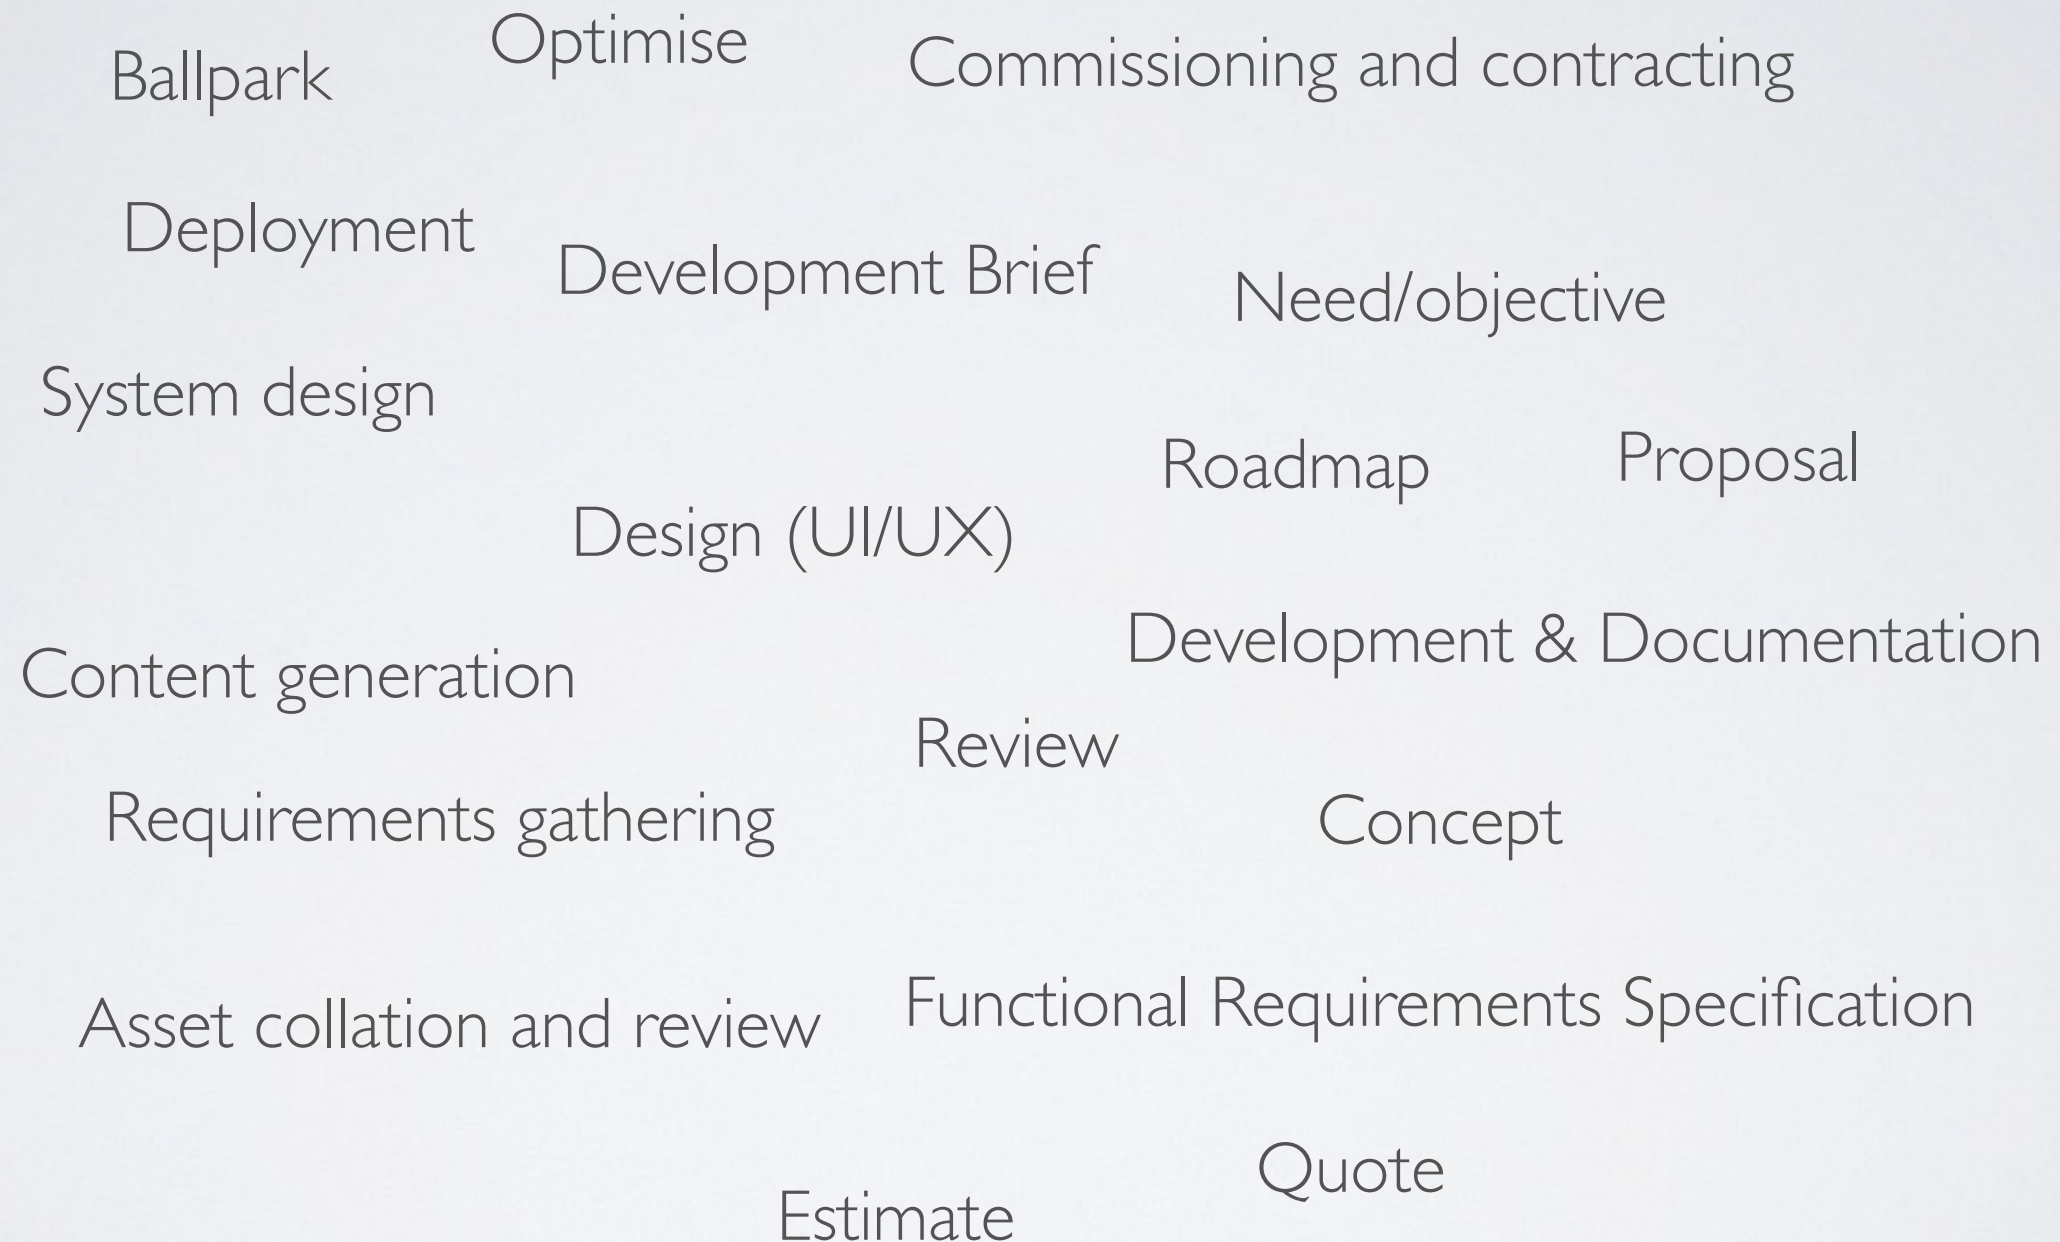

Digital commissioning process is....

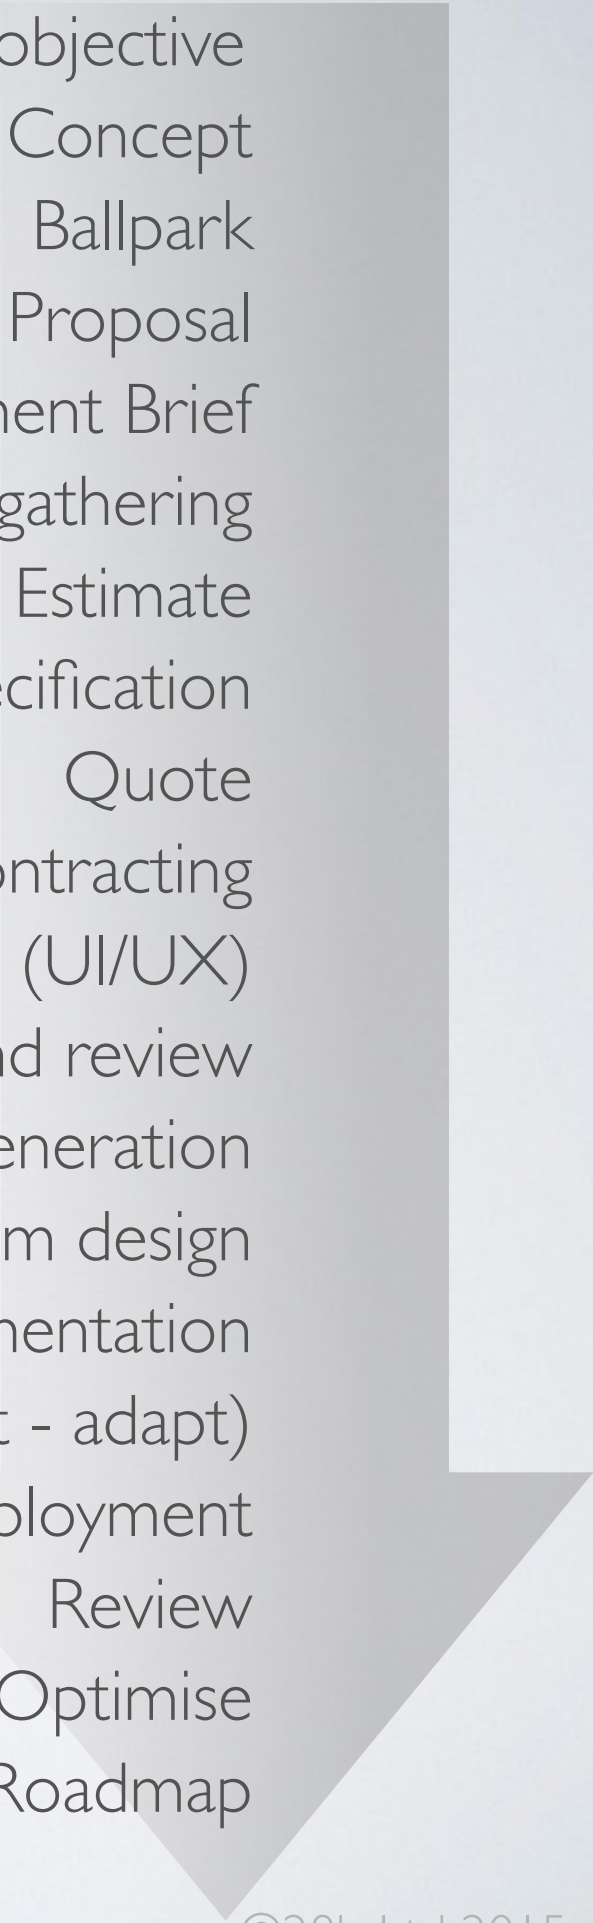

- An Effective Commisioning Process that is widely Followed
- An IneffectiveCommisioning Process that is Largely Ignored
- An Effective Commisioning Process that is Largely Ignored
- Unsure about how effective the Commisioning Process is - but it is Widely Followed
- Unsure about how effective the Commisioning Process is - but it is Largely Ignored

Project stages

Project stages

When do you
engage your
development team?

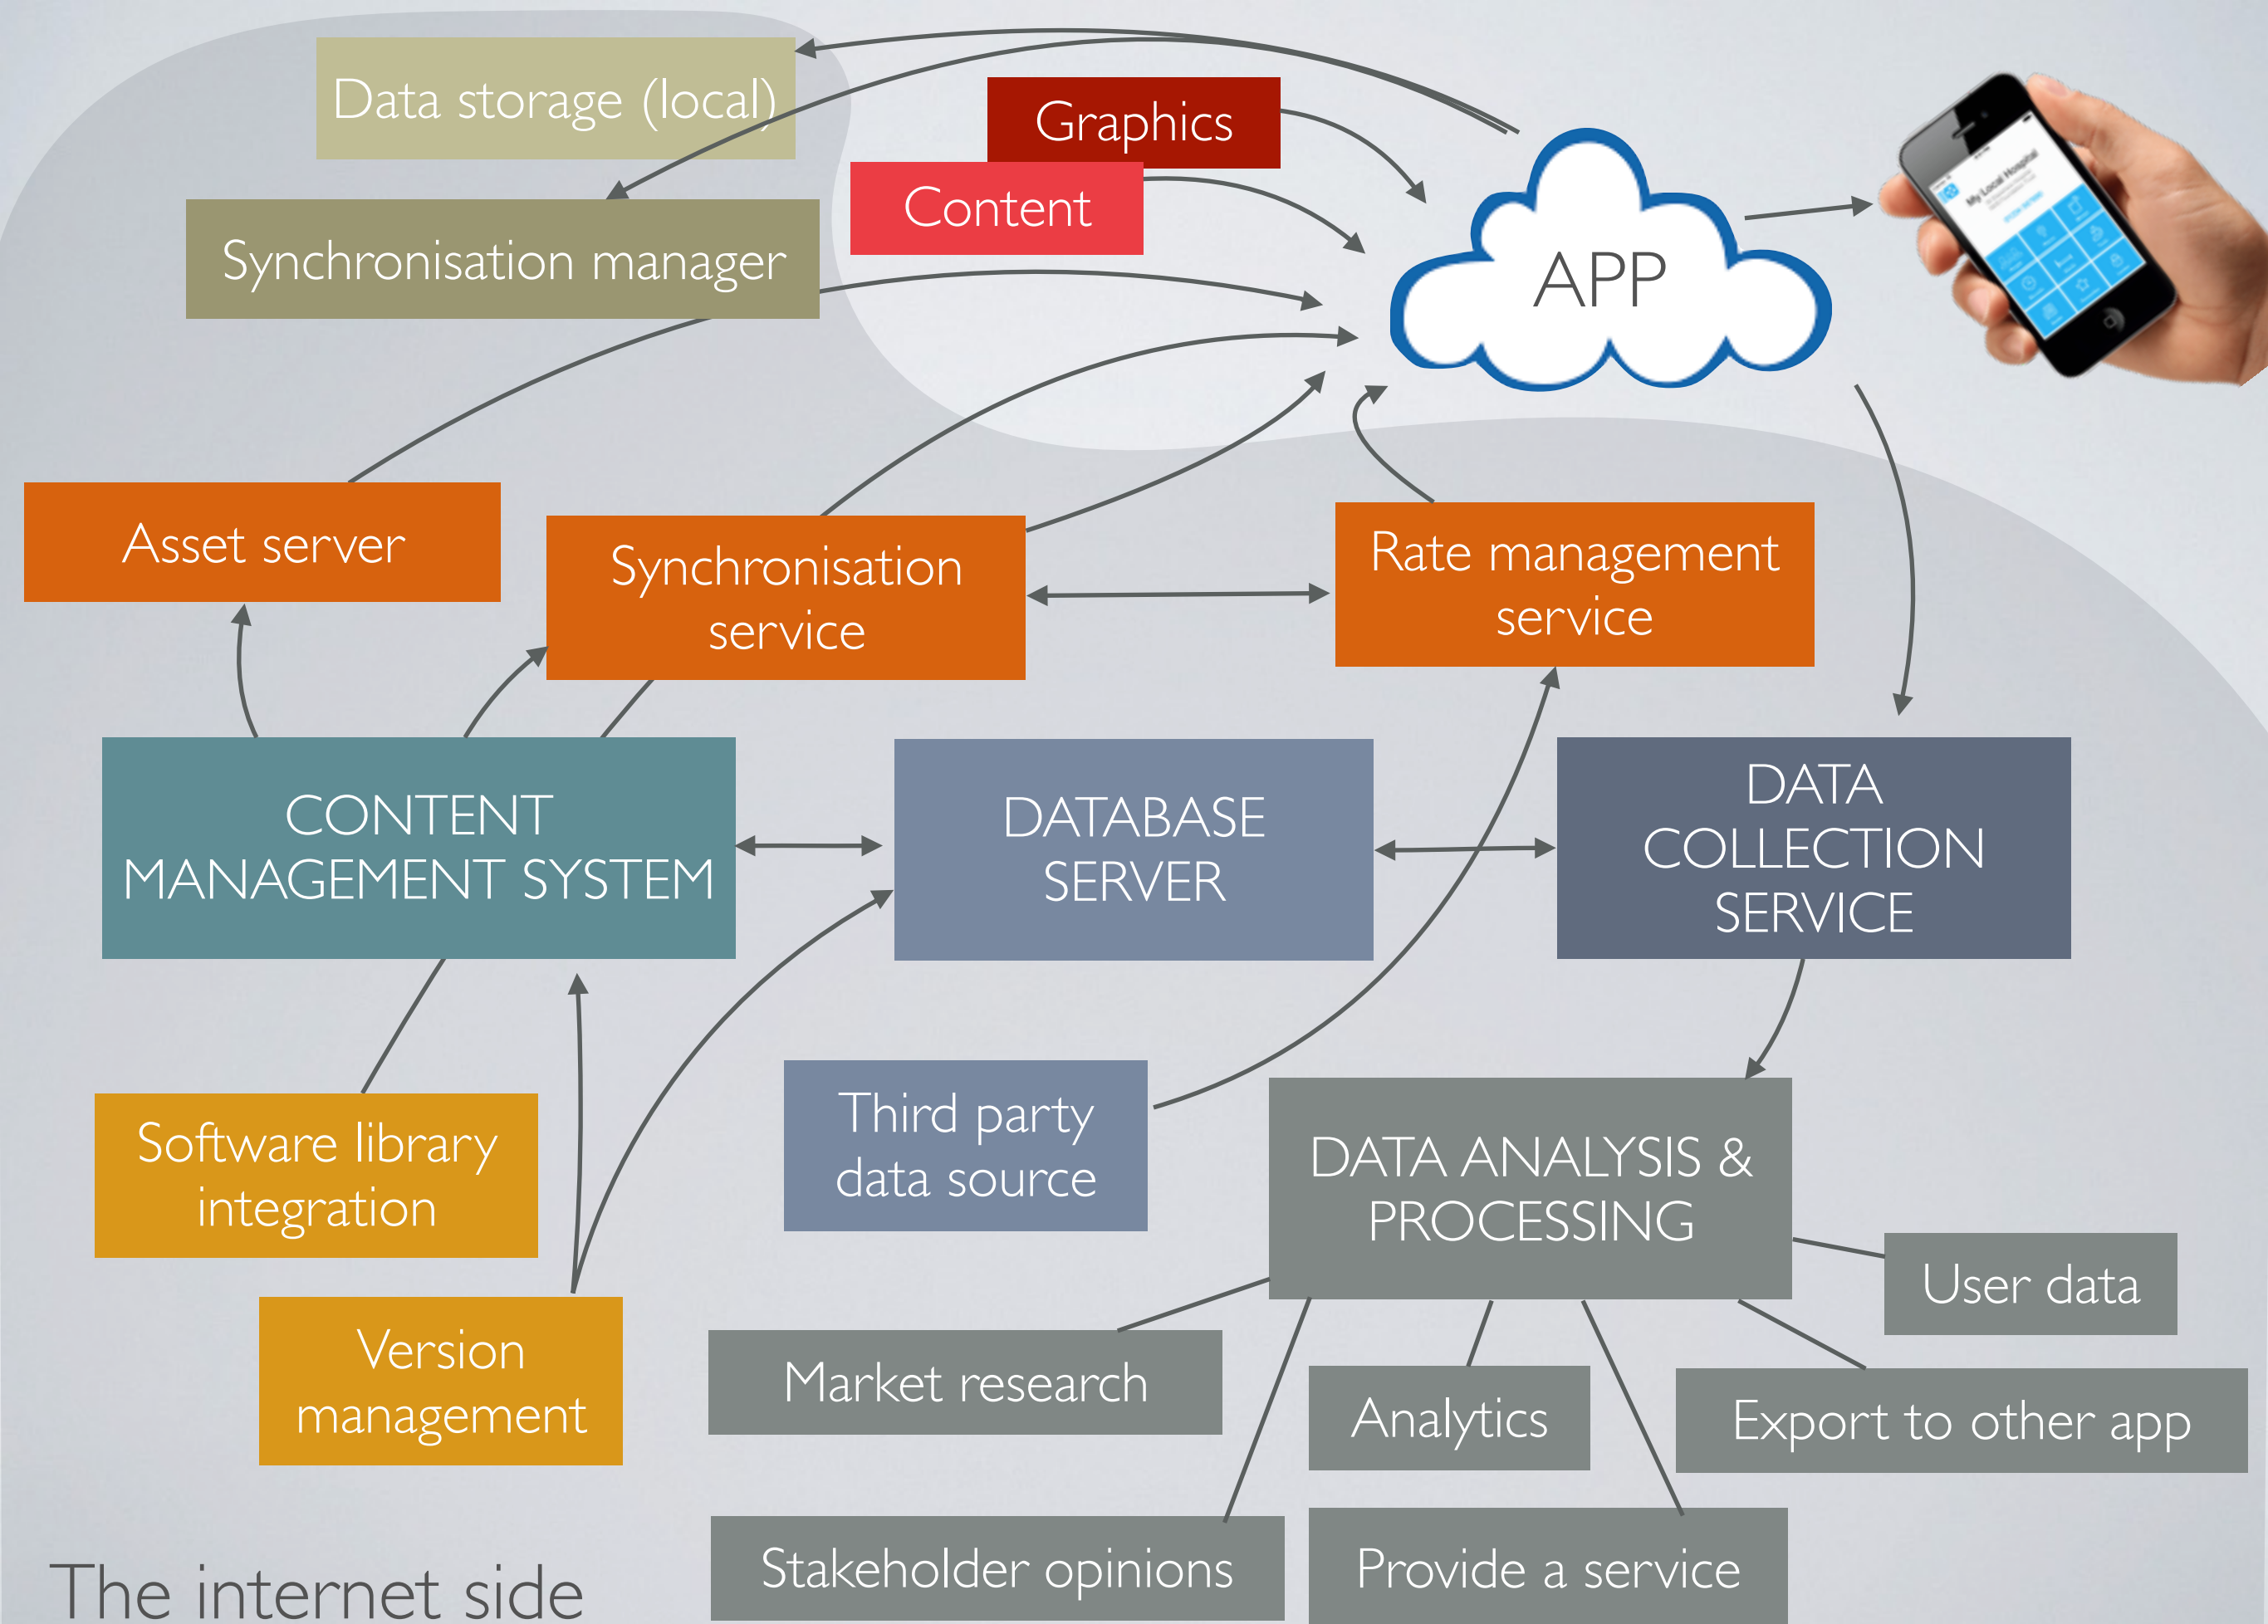

Development is not just about writing code

When is an app just an app?

The internet side

Why engage early?

Good ideas

Feasibility

Avoiding the fubar

What is it you want to do?

Where do you want this to happen?

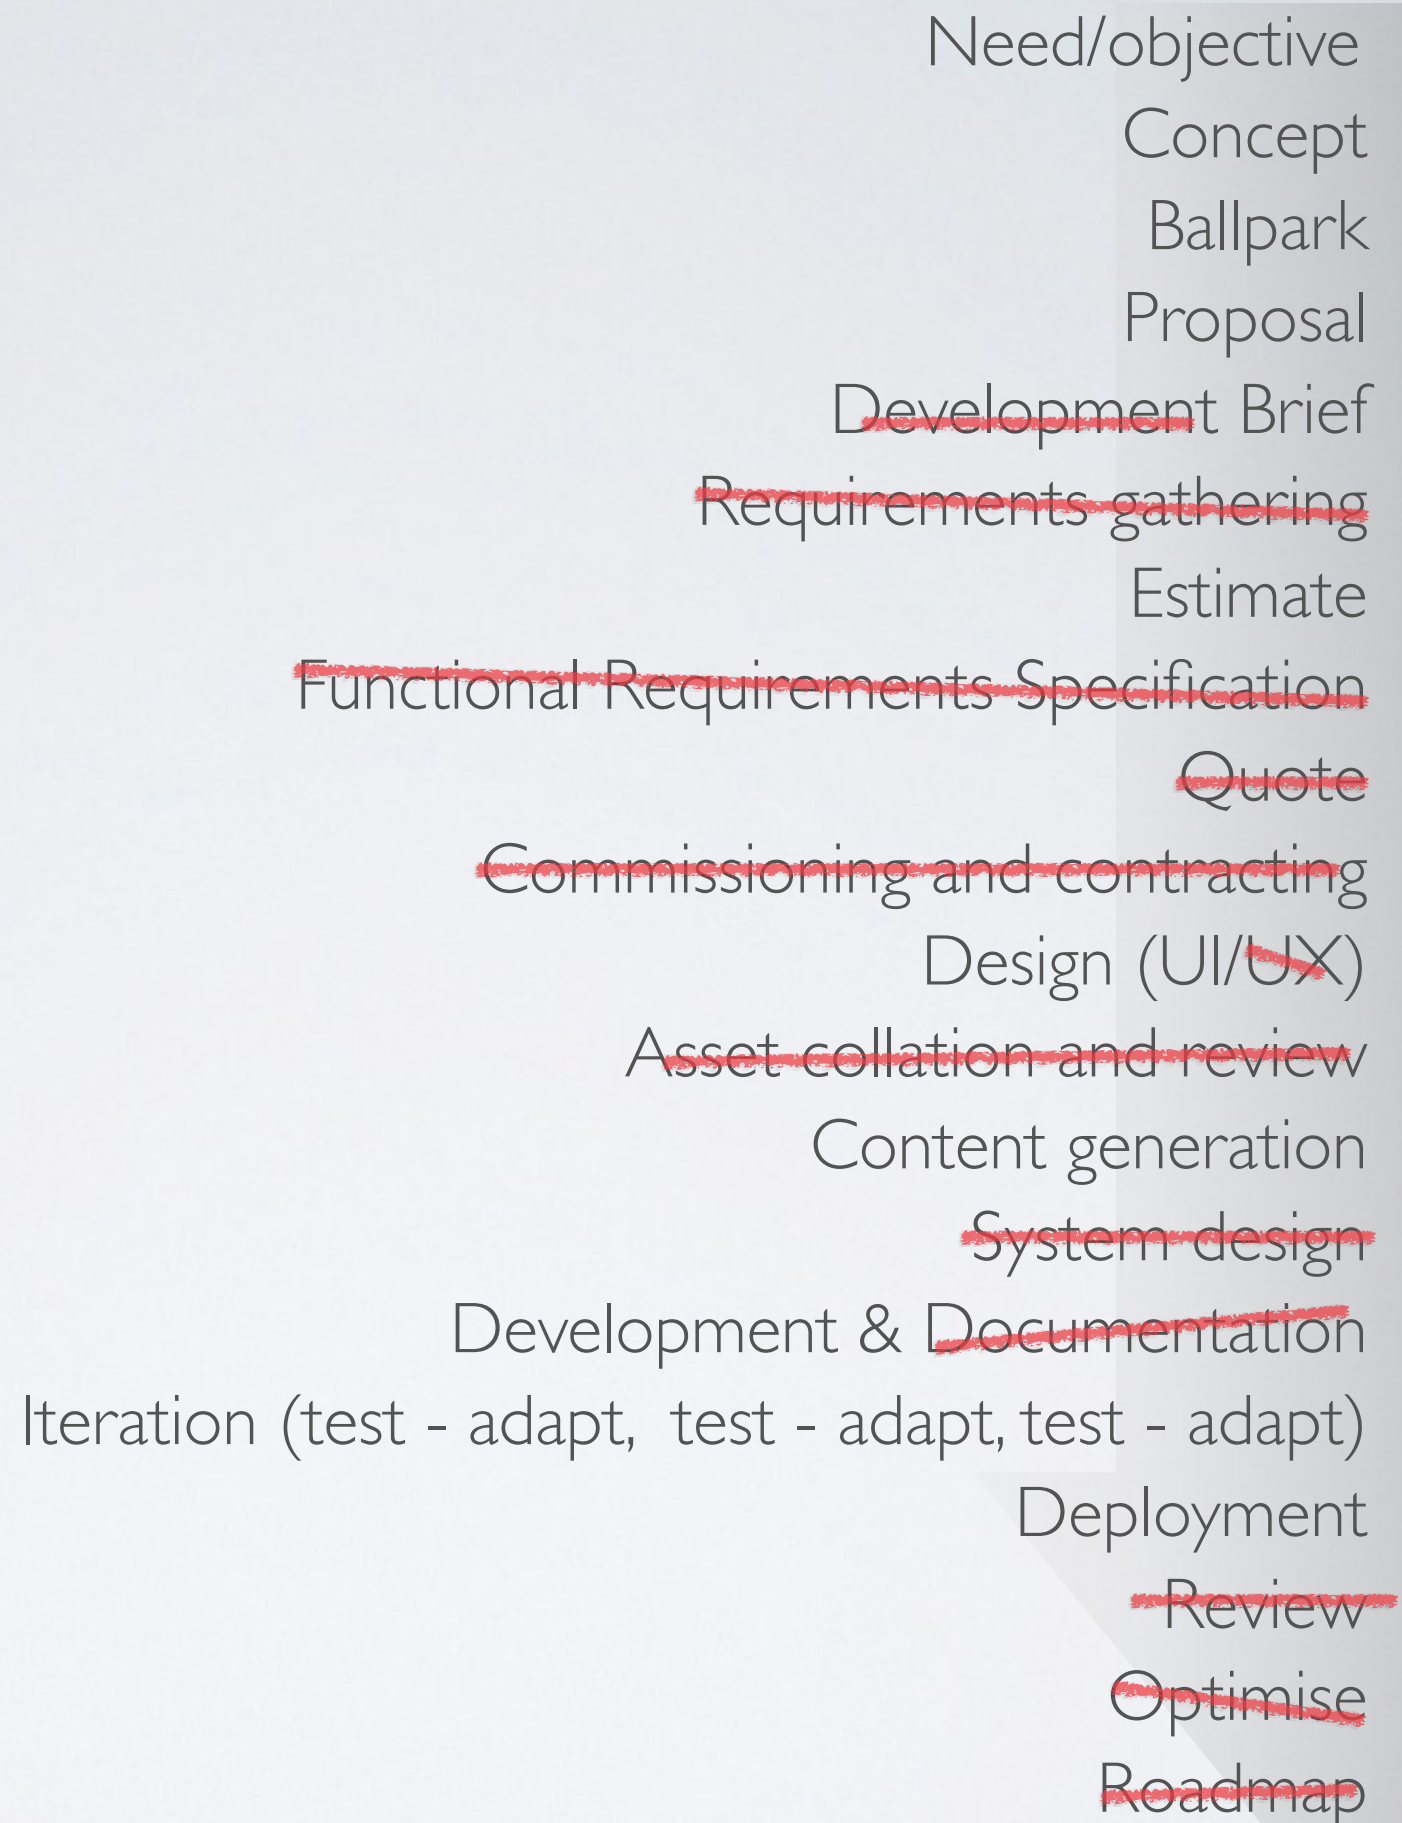

When do you want this to happen?

What do you have to make this happen (assets)?

by when, for how much and are there any regulatory,
legal, commercial, corporate, cultural or technical
considerations or restrictions?

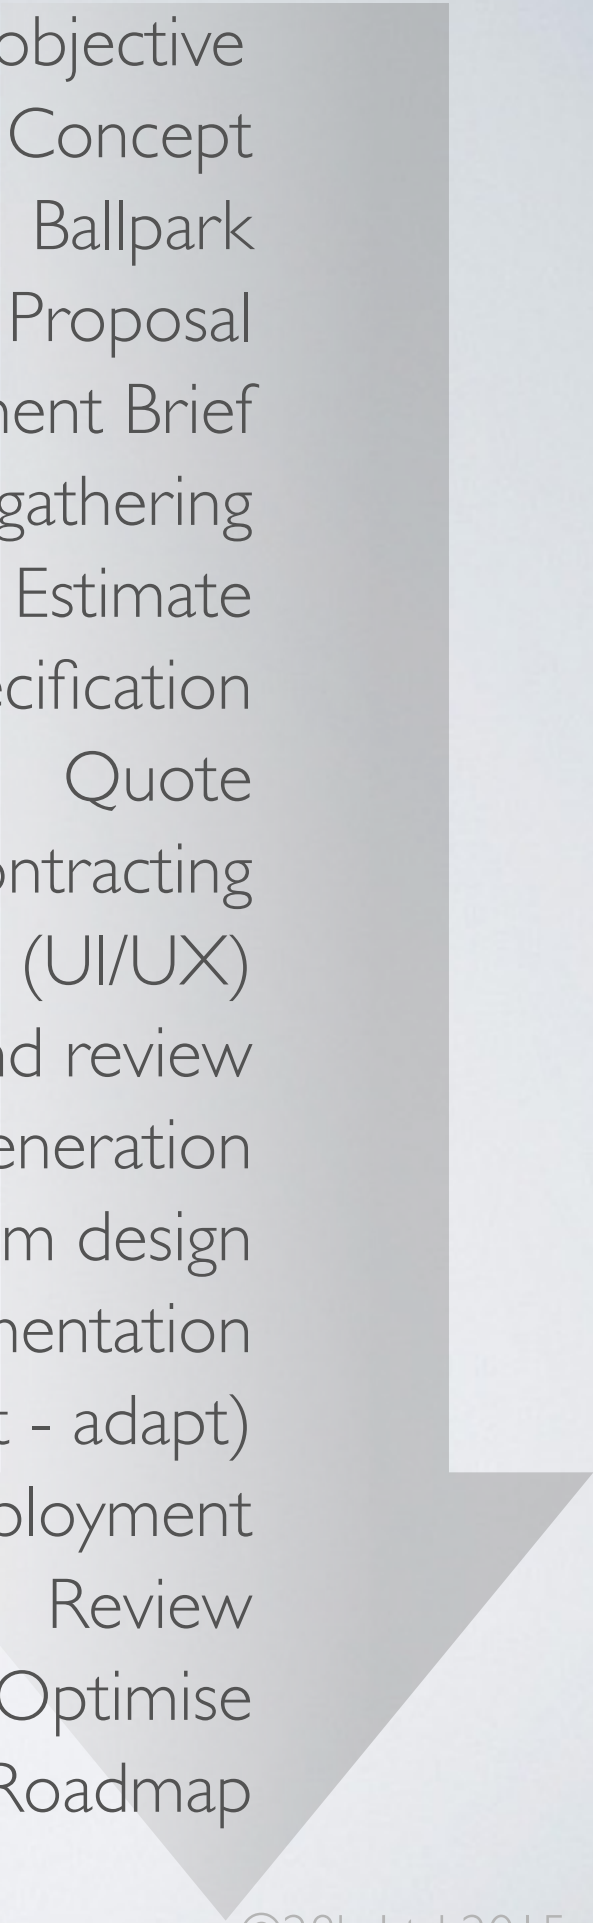

Project stages

What stages get investment?

Project stages

What fits with how
we/you do business
in the pharma and
healthcare industry?
